Santi Pietro e Vittore

Category: Catholic Church

business description: The building stands in the center of the small village of Momperone, flanked by other historic buildings in the village. The gabled façade is divided into two levels defined by a high entablature and divided into three unequal portions by four Doric pilasters. Centrally, in the lower level, is the rectilinear portal with a projecting architrave, while above is a windowed lunette. The lateral portions have two lateral niches at the bottom, contrasting with two arched niches above, containing statues of saints, identical and in a central position, as found in the tympanum. The bell tower has a square cross-section and is integrated into the structure, on the left side of the church, near the apse. The bell tower features single-lancet windows on each side and is covered by a small spire roof resting on an octagonal drum. The nave has a double-pitched roof (partially single-pitched) and a multi-pitched roof over the apse, with a tiled roof. The church has a single-nave basilica plan, divided into three bays, followed by the presbytery, raised above the nave level, with a semicircular apse. Each bay is covered by a cross vault, followed by a barrel vault over the presbytery and a cupola over the abyss. At the sides, corresponding to the bays, are three niches covered by round arches. The floor is made of rectangular marble tiles in shades of black and white.
